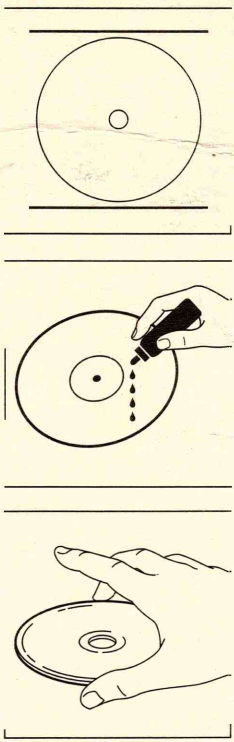
For perfect digital sound reproduction, your CDs must be clean! This cleaning kit removes fingerprints and other surface contaminants that can cause misread information and signal skips on your compact discs.

- Specially formulated cleaning solution leaves no residue
- Safe, non-abrasive cleaning pad removes even the finest particles of dirt and dust without damaging the disc's surface

Instructions

1. Place the CD with its label side down on the CD pad.
2. Remove the cover from the cleaning solution bottle and use a pin to break the nozzle's seal.
3. Hold the bottle with its nozzle facing away from you and apply 3 or 4 drops of the cleaning solution to the disc's surface as shown.
4. Gently spread the solution across the CD's surface with the cleaning pad, from the inside hole to the outside edge, until the surface is completely dry.

   WARNING: Never wipe a CD in a circular pattern. This can damage the CD's surface.
5. Hold the CD by its edges to avoid fingerprints and remove it from the CD pad.



WARNING! KEEP OUT OF REACH OF CHILDREN. CONTENTS FLAMMABLE. USE ONLY AS DIRECTED. INTENTIONAL MISUSE BY INHALING, INGESTING OR EATING THE CONTENTS CAN BE HARMFUL OR CAUSE DEATH.

CAUTION! Keep away from heat, sparks or open flame. Use only with adequate ventilation. Avoid prolonged breathing of vapors or contact with skin or eyes. Wash thoroughly after use. For medical emergencies, call (303) 623-5716.

Contents: Isopropanol 67-63-0

FIRST AID:

EYES: Flush with clear water for 15 minutes. Call physician immediately.

SKIN: Wash with soap and water. If irritation persists, get immediate medical attention.

INHALATION: Move to fresh air. Call physician immediately. If not breathing, use artificial respiration.

INGESTION: SEEK MEDICAL ATTENTION IMMEDIATELY. Induce vomiting only under the direction of a physician or poison control center. Never give anything by mouth to an unconscious person.
